=====

The Payment Summary section reflects payment information in D&B's file as of the date of this report.

This PAYDEX score indicates that payments to suppliers average 3 days beyond terms, weighted by dollar amounts. When dollar amounts are not considered, approximately 65% of the company's payments are within terms.

Below is an overview of the company's dollar-weighted payments, segmented by its suppliers' primary industries:

	TOTAL RCV'D	TOTAL DOLLAR AMOUNTS	LARGEST HIGH CREDIT	% W/IN TERMS	DAYS SLOW

The highest "Past Due" on file is \$ 0

The aggregate dollar amount of the 6 payment experiences in D&B's file equals 97.2% of this company's average monthly sales. In Dun & Bradstreet's opinion, payment experiences exceeding 10% of a company's average monthly sales can be considered representative of payment performance.

Narrative of Offense:

[REDACTED]
[REDACTED] ARPA is the research and development arm of the Department of Defense and its contracting process is somewhat unique. ARPA works closely with defense contractors in a cooperative effort to plan and design new technologies, and often awards contracts to the same contractors. As a consequence, ARPA scientists and procurement officials have a close working relationship with defense contractors, and must insure there is not the slightest appearance of impropriety. [REDACTED]

[REDACTED] BRI is a large defense contractor, exactly the type of contractor that works closely with ARPA in research and development projects. [REDACTED]
[REDACTED] the WMFO and Defense Criminal Investigative Service initiated an investigation.

The information was provided to BRI on or about September 9, 1993. BAA 93-44 was not available to competitors for the contract until September 30, 1993, at which time it was published in the Commerce Business Daily (CBD). BAA 93-44 was a solicitation for proposals dealing with the concepts of Mobile Offshore Bases (MOBs), portable ports, and other related functions. The approximate value of this contract over the initial four year period is \$286 million. The BAA strongly encouraged contractors to submit an abstract of their proposed work. The BAA stated for competitors to be considered in the initial contract award period, proposal abstracts (outlines) were due into ARPA by October 28, 1993, and proposals were due within 30 days thereafter. BRI competed for, and was awarded the portable ports portion of the contract in the initial amount of \$4.6 million in September, 1994. BRI's proposal for the portable ports portion of the contract is known as Landing Ship Quay/Causeway (LSQ/C). To date, BRI has received in excess of \$6.2 million on the portable ports contract.
